

Podcasting 101

David Morse

Materials

- ◉ Blackboard
 - Identifying Class for Recording
- ◉ Digital Recorder
- ◉ Windows Movie Maker(optional)
- ◉ Digital Editing Software(optional)
 - WMA to MP3

Different Methods Different Results

● Adding Item

- Advantages
 - Allows students to save file outside of blackboard that can be copied to a mp3 player or CD.
- Disadvantages
 - Students can give these recordings to other students and no control after downloading.

● <http://www.youtube.com/watch?v=SU1v0sDpv0s&feature=related>

● Adding Audio

- Advantages
 - Audio plays only when students are logged into blackboard.
 - Instructor has control over audio distribution.
- Disadvantages
 - Students are limited in the access to the material outside of Blackboard.

Why podcast?

Distance Education

- For online and hybrid course students can sit in a virtual lecture.

Student Absence

- For those students that miss a lecture then they will have an additional way to review other than reading the book.

Teacher Absence

- Sick
 - Should an Instructor call in sick this allows students to still maintain their place in lecture so a day is not lost.
- Weather
 - The same as for when a teacher is out sick

Why Podcast?

- Allows you to hear your own lecture to changes things up for the students
- Can be utilized with Power Points to provide a new method of Delivering Information
 - Also with appropriate editing software can link the PowerPoint to the audio and create a video students can watch
